Professional Summary

Computer Science undergraduate at Delhi Skill and Entrepreneurship University and BS in Data Science and Applications student at IIT Madras with hands-on experience in full-stack web development, REST APIs, backend engineering, and machine learning. Skilled in Python, Flask, Vue.js, SQL, JavaScript, and Git. Built AI-powered, data-driven applications using Fast API, Gemini, Retrieval-Augmented Generation (RAG), Redis, and SQLite.

Education

Indian Institute of Technology Madras
BS in Data Science and Applications
2nd year (Diploma level) | **Programming in Python: S Grade**

Delhi Skill and Entrepreneurship University
B.Tech in Computer Science and Engineering

Technical Skills

- Languages: Python, C, C++, Java, JavaScript, SQL
- Frameworks: Flask, FastAPI, Vue.js, Jinja2, Bootstrap
- Databases: SQLite
- Technologies: REST APIs, Redis, RAG, Generative AI, Git

Experience (AI/ML Intern | MAINCRAFTS Technology)

Duration: 6 Weeks

- Completed a **6-week internship** in **Artificial Intelligence and Machine Learning**, working on real-world data analysis and machine learning projects.
- Performed **data preprocessing**, **data cleaning**, **feature engineering**, and **exploratory data analysis (EDA)** to prepare datasets for model training.

Major Projects

- **Quiz Master App:** Built a multi-user online examination platform using Flask, Jinja2, SQLite, and Bootstrap with role-based authentication, quiz management, score tracking, and responsive UI.
- **Vehicle Parking App:** Developed a parking management system using Flask, Vue.js, SQLite, Redis, and REST APIs with admin/user roles, caching, and parking allocation.
- **Truth Guard:** Created an AI fact-checking platform using Next.js, FastAPI, Gemini, Retrieval-Augmented Generation (RAG), local vector database, and live web grounding.
- **VibeBite:** Developed an AI-powered recipe recommendation system using Gemini 2.5 and FlavorDB to generate scientifically grounded meal suggestions based on user emotions.
- **Interview-AI:** Interview AI is a full-stack **GenAI** application that uses Google Gemini to analyze resumes and job descriptions and generate personalized interview reports, questions, skill-gap analysis, and preparation plans.

Certifications & Achievements

- Programming in Python - IIT Madras (S Grade)
- Code, Commit, Collaborate: Git & GitHub Workshop - IIT Madras
- MIP (Mathematics Intersection Programming) Workshop - IIT Madras
- Udemy certification in Machine learning
- Participant - Foodoscope Fork IT Challenge Hackathon, IIIT Delhi
